

NEXUS AI

Platform Architecture & Complete Site Map

Full product overview: pages, flows, agents, APIs, and tech stack

NEXUS AI: The AI Marketing OS

Not a writing tool — a full AI marketing department for businesses

NEXUS

Chief Strategist

Builds full marketing strategy with GPT-4o

AI Agent

30

Posts per campaign

NEX

Content Writer

Writes posts in your brand voice

AI Agent

4

AI agents working together

VEX

Paid Campaigns

Generates complete ad campaign briefs

AI Agent

~2 min

Full content plan

SENTINEL

Market Monitor

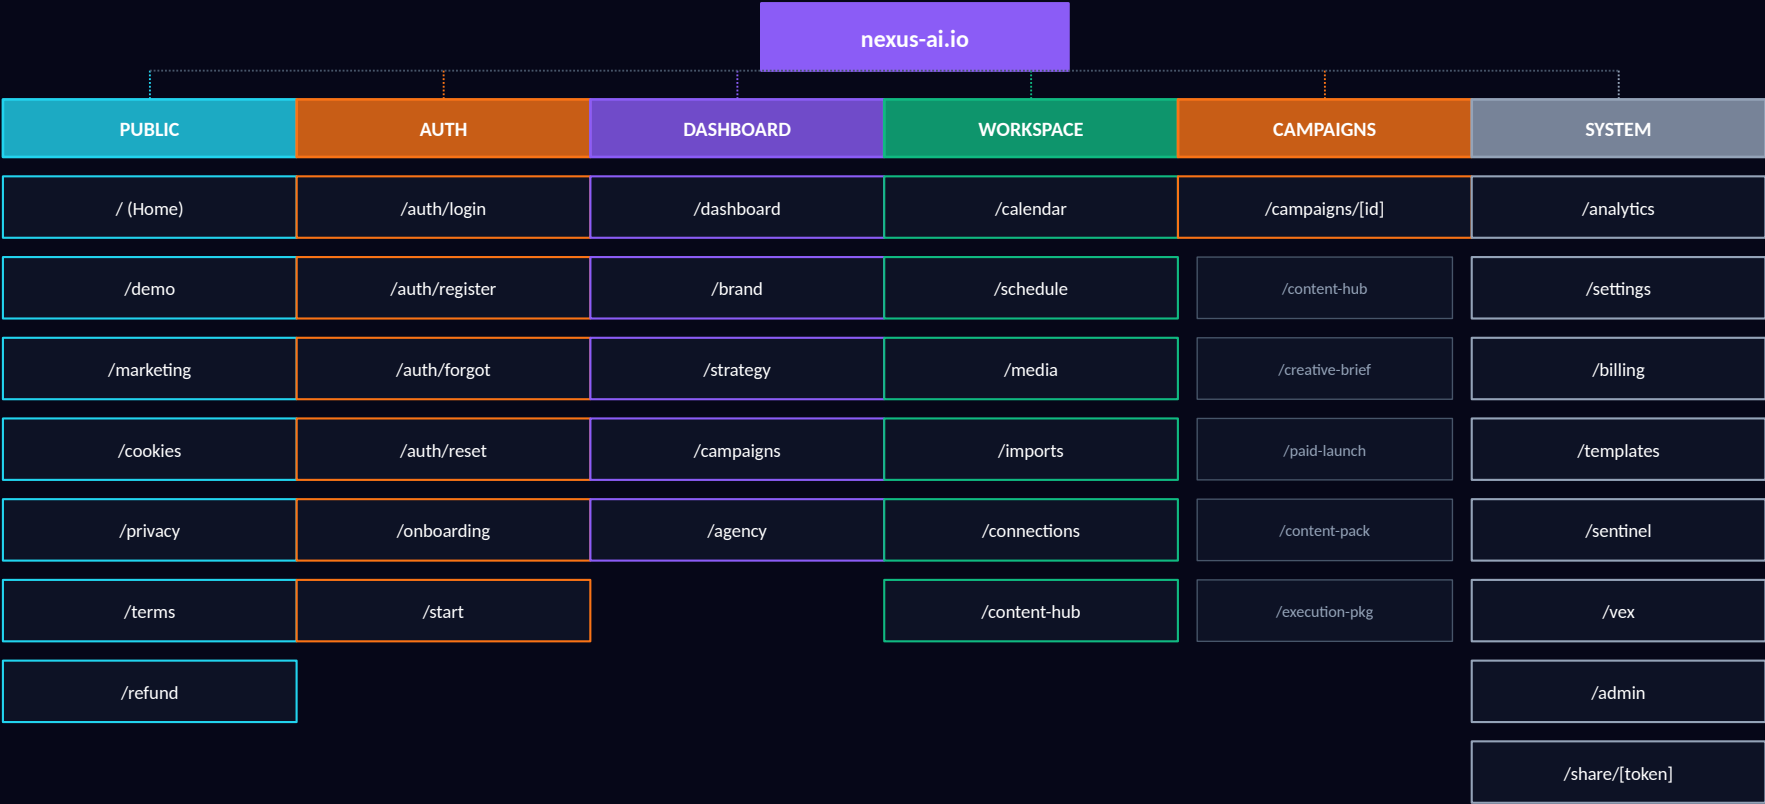

Reviews campaigns & tracks competitors

AI Agent

3

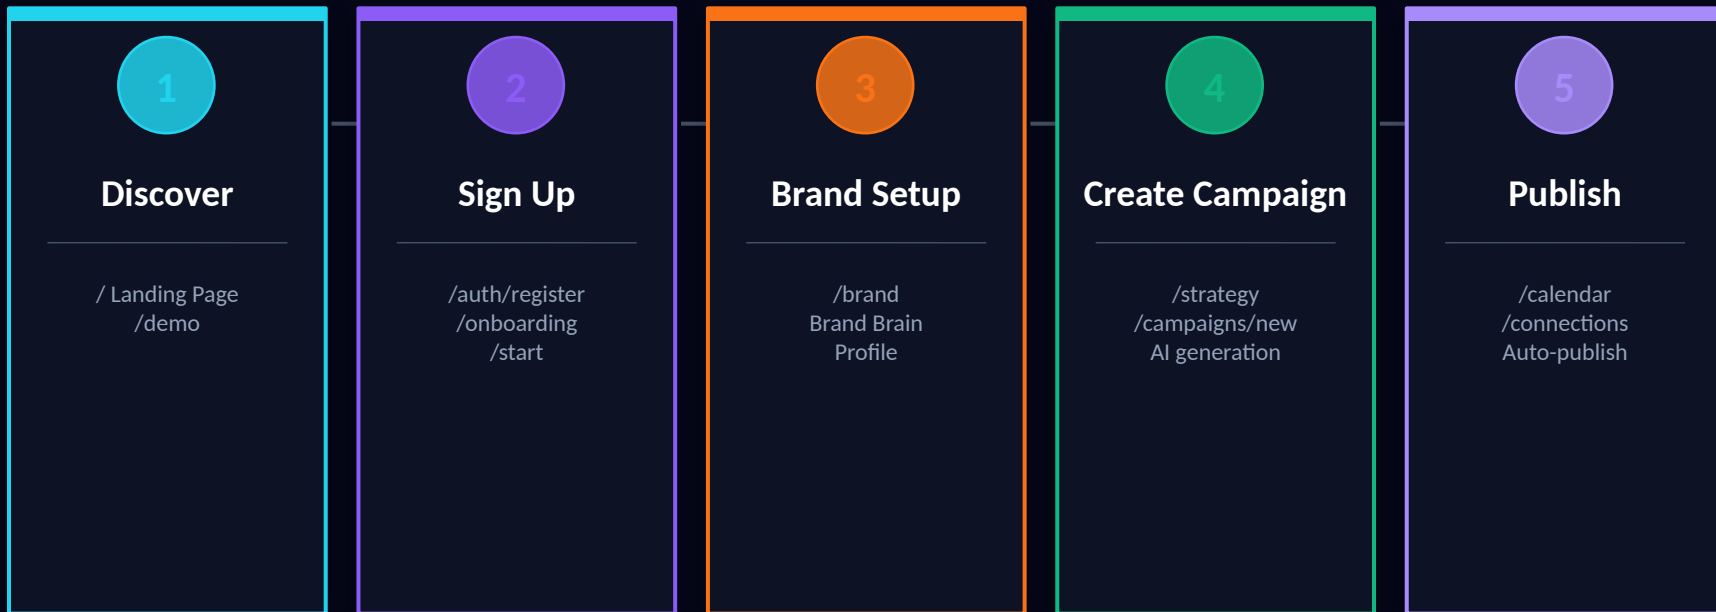

Social platforms

Complete Page Hierarchy

From Landing to Publishing

5 phases — a new user becomes a power user in one session

Average time: 15 minutes from zero to 30 scheduled posts

Authentication & Onboarding

Supabase Auth — secure, seamless, bilingual

Authentication Routes

/auth/login

Email/password + social auth (Supabase)

/auth/register

New account — triggers welcome email

/auth/forgot-password

Send reset email via Supabase

/auth/reset-password

Token-based password reset

Onboarding Flow

1

/start

Business briefing form — company info, goals, audience, budget

2

AI Runs

Full Agency Orchestrator: Strategist + Content Director agents fire

3

/dashboard

User lands on the main command center with first campaign ready

4

/brand

Brand Brain auto-populated — user can refine anytime

/dashboard — Command Center

The main hub — always alive, always showing the next action

Active Campaigns

Real-time status of all campaigns — Draft, Active, Completed. Quick access to any campaign.

AI Credits

Usage gauge shows remaining credits. Upgrade CTA appears naturally when credits are low.

Agent Suggestions

NEXUS, NEX, VEX, SENTINEL push suggestions here. Accept, ignore, or act in one click.

Recent Activity

Chronological log of all actions — generations, approvals, publishes, brand updates.

Quick Actions

Run Full Strategy, New Campaign, Brand Brain — primary actions always one click away.

Analytics Snapshot

Campaign count, posts generated, credits used — live numbers without going to /analytics.

/brand — The AI Memory of Your Brand

Permanent brand memory injected into every agent, every post, every campaign

Key Features

- Single source of brand truth
- Auto-populated during onboarding
- Updated automatically after each campaign
- Injected into all 4 AI agents
- Bilingual (Arabic & English)
- AI-powered field suggestions
- Logo upload via Cloudinary
- Readiness score system

Brand Identity

Name, tagline, category, industry

Voice & Tone

How your brand speaks

Target Audience

Demographics, pain points, desires

Competitors

Who you're positioning against

Unique Value

Why customers choose you

Winning Hooks

Proven hooks & CTAs that convert

Campaign Architecture

Each campaign is a full workspace — strategy → content → publish

/campaigns

Campaign list with status, platform icons, quick actions. One workspace per campaign.

/campaigns/new — New Campaign Wizard

Name, goal, tone, platforms, audience — then AI generates strategy + content automatically.

/campaigns/[id] — Sub-pages

/campaigns/[id]

Overview: strategy, AI output, metrics, agent suggestions

/content-hub

30 AI-generated posts with edit, rewrite, approve, schedule

/creative-brief

Complete brand + campaign brief document for teams/agencies

/paid-launch

VEX paid campaign: ad copy, targeting, UTM tracking, ROI plan

/content-pack

Downloadable content kit: captions, hooks, images, scripts

/execution-package

Full campaign execution plan with timeline and platform guides

Strategy & Agent System

/strategy + /agency + /vex + /sentinel

/strategy — AI Strategy Runner

One-click full strategy generation from Brand Brain. Goal selector, budget input, language toggle. Outputs: positioning, hooks, CTAs, content pillars, calendar.

/agency — Agent Orchestrator Dashboard

Run all 4 agents together. See agent history, reports, suggestions. Accept or dismiss AI-generated recommendations for campaigns.

NEXUS

[orchestrator.ts]

Chief Strategist — positioning, hooks, content calendar, campaign planning via GPT-4o

NEX

[content-director.ts]

Content Writer — 30 platform-native posts per campaign, brand voice injection, A/B rewrites

VEX

[/vex page]

Paid Campaign Director — audience targeting, ad copy variants, UTM tracking, ROI analysis

SENTINEL

[/sentinel page]

Market Monitor — competitive analysis, campaign review, pre-launch readiness report

Content Hub, Calendar & Scheduling

From generation to scheduled publish — all in one system

/content-hub

- Global view of all generated posts
- Filter by campaign, platform, status
- Approve, edit, or rewrite any post
- One-click push to calendar

/calendar

- Visual content calendar (monthly)
- Drag-and-drop scheduling
- See all platforms in one view
- Connected to auto-publish queue

/schedule

- Scheduled posts queue
- Time slot management
- Platform-specific scheduling
- Cancel or reschedule any post

Supporting Infrastructure

Analytics · Media Library · Social Connections · Imports

/analytics

Campaign performance overview, credit usage, ROI dashboard, activity timeline, AI quality scores per generation.

/connections

Connect Meta (Facebook/Instagram), LinkedIn, TikTok via OAuth. Manage tokens, test connections, view publishing history.

/media

Cloudinary-powered media library. Upload logos, images, videos. Organized by workspace. Used in campaign visuals.

/imports

Import existing content — CSV/bulk import of posts, past campaign data. Seed Brand Brain from existing assets.

/templates

Pre-built campaign templates for common goals: product launch, Ramadan campaign, awareness, lead gen.

Account Management

/settings · /billing · /admin · /share

/settings

- Profile name, email, avatar
- Language preference (AR/EN)
- Notification settings
- Password change
- Account deletion
- API preferences

/billing

- Current plan display
- Upgrade / downgrade
- Stripe checkout integration
- Customer portal (Stripe)
- Credit balance & history
- Invoice access

Pricing Plans

- Free: 20 AI credits
- Pro: \$79/mo — 300 credits
- Business: \$199/mo — 1,000 credits
- Stripe webhooks: plan sync
- Credits reset monthly
- Referral system

/admin

- User management panel
- Credit adjustment tools
- Account reset functionality
- Platform monitoring
- All users list view
- Admin-only access

Backend API Routes

RESTful Next.js App Router APIs — grouped by domain

/api/campaigns

GET/POST /campaigns
GET/PATCH/DELETE /campaigns/[id]
/[id]/content-plan — generate, edit, approve
/[id]/paid-pack — VEX campaign pack
/[id]/sentinel-review — AI review
/[id]/share, /[id]/push-to-calendar
